## EIGHT HUNDRED

THAT'S THE NUMBER OF TEACHERS COMING TO MARYVILLE.

## BIGGEST EVENT EVER HERE

Superintendent Oakerson's Letter to Teachers—Exhibits by Students of the County Will Be Great.

County Superintendent Oakerson is mailing out Saturday a list of instructions to the teachers of Nodaway county for the teachers' meeting to be held in Maryville at the Normal auditorium, on November 7, 8 and 9. This teachers' meeting will be the biggest educational meeting ever held in Maryville, as all of the teachers of Nodaway, Holt, Atchison, Andrew, Worth and Gentry counties are to take part.

With the letters sent out by Mr. Oakerson there are enclosed programs of the teachers' association. The following is a copy of the letter sent out to the teachers of this county.

Enclosed find program of the teachers' association to be held November 7-9. Invite and urge the school officers and patrons of your district to attend the meeting on Thursday and hear Mr. Herman E. Pearce on health, sanitation and ventilation. Every school officer in the county should hear him. I would be glad to have the patrons attend each day. In preparing your exhibit of school work, mark it as follows: Name of your school, name of the pupil, grade of the pupil. I trust that you will be able to bring an exhibit of good work from your school. Bring your school exhibit directly to the Normal building. We will have the biggest and best educational meeting ever held in Nodaway county. Eight hundred teachers will be present. Come early, you are a member of a committee to help entertain visiting teachers.

I am also inclosing the first quarter's examination questions. They should be given the last week of the second month of school.

The boys and girls enrolled in the Nodaway County Agricultural and Domestic Science association will exhibit their work during the teachers' association. Urge all of the boys and girls of your district to bring or send their exhibits in. The articles for exhibit must be entered either November 6 or 7. Invite your patrons in to see this exhibit. It will be worth while for them to come.

Some more questions. Answer them to yourself:

1. Have you read the outline of work during the past week? (If you have lost yours write me and I will mail you another.)

2. Are your pupils regularly classified? Will you have the quarter's work done at the end of the month? Are you taking your pupils too fast? Do they thoroughly understand the work gone over?

3. Have you looked into the "school toilets" during the past week? Are they in respectable condition? Have you found some that are not? How shall I find the ones on your school grounds?

4. Do you have the lessons better prepared than the pupils do? (You should do so.)

5. Is each pupil of a class attentive during a recitation or do you only have the attention of the pupil who is reciting? (You should have the attention of each pupil in each class from the first grade up during each recitation.)

## DO YOU WEAR GLASSES?

IF SO are you satisfied that they have been fitted to your eyes in a correct and proper manner?

HAVE THEY GIVEN YOUR EYES that relief which you expected they would?

ARE YOUR EYE MUSCLES following their natural laws as they should do with correctly fitted glasses.

WOULD YOU LIKE MY OPINION? I will give it to you willingly, FREE OF CHARGE.

## CAMPAIGN OPENED

A GOOD SIZED CROWD IN ATTENDANCE FOR DEMOCRATIC MEETING

## RAINEY AND JOST TONIGHT

Congressman Booher and Judge Wallace Spoke This Afternoon at the Meeting.

The opening of the Democratic county campaign occurred Saturday afternoon in Maryville and a good sized crowd, one that filled the circuit court room, was in attendance. Many Democrats from over the county were in attendance and more would have been here if the roads were in better condition.

Congressman C. F. Booher of Savannah and Judge W. H. Wallace of Kansas City were the speakers this afternoon. John M. Dawson, county chairman, presided at the meeting, and Congressman Booher was introduced by Charles McCaffrey, and Judge Wallace by Wm. G. Sawyers.

### Rainey and Jost Tonight.

Congressman Rainey of Illinois and Mayor Henry L. Jost of Kansas City will be the speakers at the meeting to be held in the court house this evening. Both of the speakers will arrive in the city on the Wabash evening train from Gallatin, where they spoke this afternoon. Congressman Rainey is one of the big political speakers of the country, and Mayor Jost, the former Nodaway county boy, is rapidly becoming one of the big men of Missouri. All should turn out to hear these distinguished men.

### The Speeches This Afternoon.

Congressman Booher spoke on the political issues of the day, and especially did his exposition of the Payne-Aldrich tariff have a telling effect. He also said Roosevelt, he thought, was a better man than Taft made him out to be, and that Taft was not such a double-header as Roosevelt would have us believe, but that both had associations and were surrounded with influences that were anything but desirable, and that the people could not but think such constant associations would corrupt, and they undoubtedly did corrupt their administrations. The relief and remedy is Wilson who will have none of the bosses and their domination.

Judge Wallace also made a Democratic speech, advocating the election of Wilson and the ticket. His main speech, however, was for the adoption of the constitutional amendment favoring honest elections and opposing the single tax amendment.

In reference to honest elections he says that never in the history of the country was there so much fraud in an election as was in the St. Louis election two years ago, and two years ago was in line with other years, only worse. In this last election as many as 1,700 voters registered and voted in one precinct, when 300 is about all that can be voted in one precinct in a day. The amendment he advocates provides that a man sign his name again when he votes. This will stop some of the fraud. Another provision is to get judges known to be honest from other precincts and put them in the slum wards where so much fraud is practiced.

His exposition of the single tax amendment was much the best heard here this year. He says it means confiscation of farm lands, because the taxes would be so high that a rich man would not own the land and a poor man could not. He said this was the object of single tax, and some of the advocates admitted that they did not believe any man had a right to own land—that it all should be common property and belong to the state.

## High School Notes

Rev. Miles W. Smith of Tarkio, who was a college friend of Prof. Westbrook, addressed the students at assembly Wednesday morning. He had for a subject "The Study of Literature," and centered his thoughts on Tennyson and "The Holy Grail." Although the address was short it was very impressive, especially to the seniors, who had just finished the study of one of Tennyson's poems.

The spring seniors were called to a meeting last Monday for the purpose of organizing the class. The following officers were elected: Walter Fraser, president; Martha Denny, vice president; Walter Dersch, secretary; Halley Ford, treasurer. There are thirty-two members in the class, which is the largest in the history of the school.

The mid-year seniors have purchased gray sweaters with the figures 13 in red placed on the left side.

An athletic association has been formed and a committee consisting of Prof. Westbrook and Prof. Israel of the faculty and Robert Brown, Harold Staples and Howard Leech of the student body, met Tuesday to draw up the constitution and by-laws. There is every reason to believe that this department of the school will have a very successful year, for many of the students have expressed their intention of taking up this work.

The high school is to have an orchestra this year. A call was made for those interested in this work, and a seven piece orchestra is the result. The following is the instrumentation: Mildred Robinson, piano; Verne Thomas and Katherine Carpenter, violins; Ora Quinn, clarinet; Hazel Vandervort, cornet; Helen Helpley, drum; Walter Dersch, trombone.

The students were very enjoyably entertained at assembly Thursday morning by Misses Marie Jones and Lottie Perrin. Miss Jones, accompanied on the piano by Miss Perrin, sang Tosti's "Good-By," and was encored three times.

The basket ball season was opened Thursday for the high school, when the Tigers of the high school defeated the Normal second team in the latter's gym. The final score was 10 to 9. The line-up: Tigers, David, guard; Montgomery, guard; Ford, forward; Murray, forward; Thompson, center; Normal, Scott, guard; Woodard, guard; Lomar, forward; Hanna, forward; Watson, center.

The visitors of the week were Mr. Fleming Carpenter and Rev. Harrel.

## POLITICAL NOTES.

(By Democratic State Committee).

The consumers of woolen goods in this country pay a tariff tax of \$203,382,493 per year. This is equal to a per capita tax of \$2.17. So much for schedule K. Taft said it was indefensible—but he vetoed a bill to repeal it.

The people of the United States consumed 7,563,000,000 pounds of sugar last year. The tariff tax was 1½ cents per pound. Upon this one article of daily necessity the American people paid into the coffers of the sugar trust in a single year the sum of \$115,000,000. Does this hit you?

The injuries sustained by State Auditor John P. Gordon in an automobile accident some weeks ago are so serious that his friends fear he will be unable to take any part in the campaign. But the Missouri taxpayers who appreciate his public services will look after his interests at the polls in November.

If John C. McKinley is so anxious to provide cheap school books for the children, why doesn't he advocate a reduction in the prohibitive tariff on book paper and printing materials? Does he want these trusts to get an additional graft out of the state through that convict labor printing plant?

## Wilson More of a Favorite.

New York, Oct. 12.—Election betting took a boost yesterday, with Wilson quotations of 4 to 1 in Wall street, and with the announcement of his quotations on the presidential candidates by James O'Leary, the Chicago bookmaker. O'Leary's slate is:

Wilson, 2 to 5.  
Taft, 2 to 1.  
Roosevelt, 4 to 1.  
Debs, 3,000 to 1.  
Chafin, 5,000 to 1.

A Wall street betting commissioner yesterday showed \$4,000 which he was anxious to place on Wilson against \$1,000. The short end was not covered, only \$200 of the \$1,000 being put out. The \$4,000 was sent down into the financial district by a Democratic contractor, and betting men said it was Tammany money.

One betting commissioner said that at this time in the 1908 campaign he had handled \$100,000. This year his estimate of bets placed was \$10,000. The odds stand at 3 to 1 against Taft and 4 to 1 against Roosevelt. There was one offer of 1 to 3 that Wilson would receive a greater popular vote than Roosevelt and Taft combined.

Several small bets of \$200 or \$300 each were reported at 3 to 1 on Sulzer.

## NO AMERICAN LOAN FOR WAR

Application for Large Amount Draws  
Curt Refusal From Morgan.

## TURKISH TREASURY IS EMPTY

Negotiations Abruptly End When  
Fight Began—Russia Preparing  
to Assemble Black Sea  
Fleet.

New York, Oct. 12.—"Millions for peace; not a cent for war."  
This in effect was the curt message that has just found its way from the great banking house of J. P. Morgan & Co., to the sublime porte at Constantinople.

Only a few days previously the Turkish finance minister had caused inquiry to be made here if New York financiers were willing and able to loan the Ottoman government \$50,000,000 with which partially to rehabilitate its finances after the long struggle with Italy had left them in bad condition. The Morgan house consulted with the National City bank, Kuhn, Loeb & Co., and the First National (a Morgan interest) and gave assurances that the required loan easily could be placed here.

Stopped Correspondence.  
Business associates of Mr. Morgan repeated that the Turkish negotiation quickly would have been consummated had not the Balkan countries risen in fierce war against Turkey. As soon as this occurred Mr. Morgan stopped all correspondence on the subject of the loan. When another "feeler" reached him from responsible sources in Europe it is said that he delivered the stern ultimatum quoted.

In the financial district the Morgan ultimatum was generally accepted as indicating an early cessation of hostilities in the Levant, because it is known that the balance of power between the rival European nations is now so poised that no group of financiers across the Atlantic could be induced to make the loan even if their governments should permit them to do so.

Turkey is bankrupt and cannot sustain herself through any other considerable struggle even with armies so weak as those of the Balkans unless she can borrow millions.  
One of Mr. Morgan's associates said that just as soon as Turkey agrees to a peaceable settlement of the Balkan troubles the American group will reopen the \$50,000,000 loan negotiations.

Will Support Turkey.  
St. Petersburg, Oct. 12.—Russia is preparing to mobilize her Black sea fleet in order to support representations made by Turkey to Russia regarding the restrictions of traffic in grain.

## May Involve Great Powers.

Vienna, Oct. 12.—That Austria-Hungary is making military preparations in anticipation that the Balkan conflagration may involve the larger powers, was indicated by the reply of the minister of finance in the Hungarian delegation to a criticism by a socialist that the extraordinary military credits requested by the government implied warlike designs. While protesting that the government's policy was a most pacific one, the minister said:

"We are of the opinion that international deliberations regarding the consequences of war in the Balkans may ensue, and in that case we probably would make our voice heard more successfully if we were well armed."

## GOT DIVORCE IN RECORD TIME

Gross neglect of duty is the technical allegation of the wife.

## For a Mock Hanging, \$5,000.

Weatherford, Ok., Oct. 12.—In the case of Byron Powell against Ed Thomas, former sheriff, in the district court of Arapaho, for \$5,000 damages alleged to have been sustained by a mock hanging, the jury returned a verdict in Thomas' favor. Powell claimed that Sheriff Thomas and his deputies hanged him by the neck to a tree, severely injuring him.

and Crews Leap into Water  
—One Man Killed.

Bayonne, N. J., Oct. 11.—One man burned to death, one seriously injured and one missing is the total of a fire which started at 8 o'clock p. m. on board the oil tank steamer "Dunholme," at the docks of the Standard Oil company.

The property damage is estimated at \$500,000. Two steamers and a schooner were burned almost to the water's edge, and two other steamers and two piers were badly damaged.

Burning Oil Is Scattered.  
A bursting boiler aboard the steamer "Dunholme," which was about to sail for England, with 90,000 barrels of oil, is believed to have started the fire, which soon communicated to one of the ship's tanks. This exploded, scattering burning oil to every part of the deck and over the deck of the "Hohenzollern," loaded with 70,000 barrels of oil in bulk.

Tied to the dock was the "Hohenzollern," and the schooner "Coronet," loaded with 30,000 barrels of oil. Almost immediately the "Hohenzollern" and "Coronet" were burning.  
Tugboats came and threw a hawser to the "Dunholme" and she was dragged half a mile from shore. At the same time a hawser was thrown to the "Hohenzollern" and her crew of 22 men leaped into the water and reached shore.

Largest Tank Steamer in World.  
As the "Dunholme" was being dragged to sea, the heat was such that the captain, his wife and daughter and the members of the crew ran to the stern of the ship and dived into the water. All reached shore safely with the exception of the ship's carpenter, who was burned to death.

The "Naragansett," the largest tank steamer in the world and loaded with 100,000 barrels of oil, was next to catch. Then the flames leaped over to the steamer "Saxaline," which had 70,000 barrels of oil in her holds. Piers 3 and 4 were badly damaged.  
Two hours after the fire started the "Dunholme," the "Hohenzollern" and the "Coronet" had burned to the water's edge, but the sea of oil in their holds continued to blaze.

The "Naragansett" and the "Saxaline" were both badly damaged.

## SUBMARINE IS WRECKED

Rising Sea Tore Little Craft From  
Its Moorings.

## TWO MEMBERS OF CREW PERISH

Giant Waves Swept Men From Deck—  
Vessel Abandoned After Hard  
Fight—Aground in Three  
Feet of Water.

Watsonville, Cal., Oct. 12.—G. A. Schroeder of Milwaukee and T. J. Turbett of Newark, N. J., seamen on board the United States submarine F-1, were drowned when a giant wave swept over the little craft, which later went aground near Port Watsonville. The extent of the damage to the submarine could not be determined. Low tide left it upright in the sand in three feet of water.

Schroeder and Turbett were on watch at daybreak, with another seaman named "Blinky" when a rising sea tore the submarine from its moorings to a buoy.

## Washed Overboard.

Before the seamen could get control of the steering gear, the deck was engulfed in a wave and Schroeder and Turbett were carried overboard. The third seaman saved himself by grasping the railing.

The 13 remaining members of the boat's crew fought for six hours to save the craft from being beached. When it was seen that the vessel was being driven inland irresistibly it was abandoned, and a few moments later the diver rammed its nose into the sand.

The submarine was in command of Lieut. James B. Howell. The F-1 is the holder of the world's record for submarine diving, having gone down 283 feet in San Francisco bay, September 5, 1912. The ship was christened the Carp, and was renamed November 17, 1911.

One Greek miner was shot through the leg, another was knocked down with a rifle butt. Both were taken to the hospital. A number were arrested. The trouble occurred when the strikers gathered at a hillside settlement opposite the Utah Copper company's pit, where a steam shovel was put in operation.

Pontiac, Ill., Oct. 12.—Everette L. Monroe was killed by electricity here. ## CASCARETS CLEANSE LIVER AND BOWELS

The Millions of Cascaret Users Never  
Have Headache, Constipation, Biliousness of Sick Stomach.

It is more necessary that you keep your bowels, liver and stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing too.—Adv.

## SOMERSAULTS OF ROOSEVELT

William Jennings Bryan Analyzes  
Record of Third Term Candidate

### HIS SUDDEN CONVERSION

No Message in Behalf of People's Cause in Seven and a Half Years  
T. R. Was President.

By WILLIAM JENNINGS BRYAN.  
Solomon says that the borrower is servant unto the lender. If this applies to one who borrows ideas Mr. Roosevelt does not recognize the obligation, for he has not only borrowed from the Democratic party as few public men have borrowed from an opposing party, but he has shown himself strangely ungrateful for the ideas taken. Of course it will not be contended that an idea can be patented, it is the only thing, in fact, that is not subject to monopoly.

Even Mr. Perkins, with all his fondness for the trust, would not contend that a monopoly in ideas could be formed and made subject to regulation by a bureau appointed by the president. Mr. Roosevelt, however, has won his popularity by the advocacy of things previously advocated by the Democrats, and still he is all the while assailing the Democrats bitterly and has shown toward them a hostility that is hard to explain.

To show the extent of his borrowing, let me enumerate some of the things which he now advocates that were advocated by the Democrats at an earlier date.

### Shall the People Rule?

Take his paramount issue of the present campaign—namely, the rule of the people. The platform adopted by the Democratic national convention at Denver four years ago contained the following:

"Shall the people rule?" is the overwhelming issue which manifests itself in all the questions now under discussion.

Here is the very phrase which he employs, and it is not only declared to be an issue, but the overwhelming issue. It was dwelt upon by the candidates and by other speakers during the campaign, so that Mr. Roosevelt, then president, may be assumed to have had notice of it. He not only refused to admit then that it was the paramount issue, but he displayed extraordinary activity in urging upon the country Mr. Taft, whom he has since declared to be the agent of bosses and the enemy of popular government.

It would seem that he ought to make some slight acknowledgement of his indebtedness to the Democratic party for suggesting this issue to him. At least, he might put the issue in quotation marks.

He is now advocating the direct election of senators, but if he ever expressed himself in favor of this reform earlier than two years ago the fact has escaped my observation, and I have not only watched carefully, but waited anxiously, for some favorable expression from him.

Long Fight For Popular Election of Senators.

The Democratic party began the fight for the popular election of senators twenty years ago this summer, when a Democratic house of representatives at Washington passed for the first time a resolution submitting the necessary amendment. Since that time a similar resolution has been passed by the house in five other congresses—first, in 1894 by another Democratic house; then, after two congresses had elapsed, by three Republican houses, and, last, by the present Democratic house. During the twenty years the reform has been endorsed in three Democratic platforms, the platforms of 1900, 1904 and 1908, and it has been endorsed by the legislatures of nearly two-thirds of the states. Mr. Roosevelt must have known of the effort which was being made by the people to secure the popular election of senators, and yet he took no part in the fight. During this time he was president for seven and one-half years, and it is quite certain that a ringing message from him would have brought victory to the people's cause, but no message came. Four years ago the convention which he controlled and which nominated Mr. Taft rejected, by a vote of seven to one, a resolution endorsing this reform.

Still Mr. Roosevelt did not say anything. He neither rebuked the Republican convention nor endorsed the strong plank which was included in the Deaver platform. Even Mr. Taft went so far during the campaign of 1908 as to say that PERSONALLY he was INCLINED to favor the popular election of senators by the people, but Mr. Roosevelt did not even indicate an intention in that direction. Now, when the reform is practically secured—the amendment being before the states for ratification—he declares himself in favor of it. Would it not be fair for him to indicate in some way his appreciation of the long continued fight waged by the Democrats in behalf of this reform before he espoused it?

### T. R. and the Income Tax.

Mr. Roosevelt is in favor of an income tax. How long since? His first endorsement of it was during his second term, and then it was suggested as a means of limiting swollen fortunes and not as a means of raising revenue. The Democratic party included an income tax provision in the Wilson law of 1894. When this provision was declared unconstitutional by the supreme court by a majority of one the Democratic party renewed the fight and has contended for the income tax in three national campaigns. In 1908 the Democratic platform demanded the submission of an amendment specifically authorizing an income tax—the very amendment now before the states for ratification.

Mr. Roosevelt's candidate, Mr. Taft, declared during the campaign that an amendment was not necessary, and Mr. Roosevelt never made any argument in favor of the amendment or in favor of the principle embodied in it. The amendment has now been ratified by thirty-four states; but, so far as I know, Mr. Roosevelt has never made a speech in favor of its ratification nor, since the submission of the amendment, made a speech urging an income tax as a part of our fiscal system. It would not require any great stretch of generosity on his part to credit the Democratic party with priority in the advocacy of this reform.

Not Always For Railroad Regulation.  
Mr. Roosevelt is now an advocate of railroad regulation. When did he commence? The Democratic party in its platforms of 1896, 1900 and 1904 demanded an extension of the powers of the interstate commerce commission. Up to 1904 Mr. Roosevelt never discussed the subject of railroad regulation officially or in public speech, so far as I have been able to find. Although nominated without opposition in the convention of 1904, his platform contained no promise of railroad regulation. By its attitude on the railroad question the Democratic party alienated the support of those railway officials who counted themselves Democrats, and Mr. Roosevelt, both in 1900, when he was a candidate for vice-president, and in 1904, when he was a candidate for president, had the benefit of the support of those ex-Democrats. It was in 1904 that he wrote his famous letter to Mr. Harriman and in the state of New York profited by the campaign fund that Mr. Harriman raised.

When after 1904 Mr. Roosevelt took up the subject of railroad regulation he found more hearty support among the Democrats in the senate and house than among the Republicans, so that he has reason to know that the Democratic party has for a long time planted itself boldly upon the people's side on the subject of railroad regulation. Under the circumstances we might expect some complimentary reference to our party's attitude instead of anathemas.

### T. R.'s Complete Somersault.

On the subject of publicity as to campaign contributions he has not only adopted the Democratic position, but he has been compelled to turn a complete somersault in order to do so. In 1908 the Democratic platform demanded the publication before election of the names of individual contributors and the amounts contributed. Mr. Roosevelt at that time endorsed Mr. Taft's contention that the publication should be deferred until after the election, and even went so far as to give reasons for believing that it would be improper to make the publication before the election. Two years later he declared in favor of publicity before and after the election, landing on the Democratic side shortly before the law was enacted carrying out the Democratic platform on this subject. Here, surely, he ought to praise the Democratic party for the pioneer work it has done in purifying politics.

Here are a few of the things which bear the Democratic brand, and with all of his experience on the plains he will not be able to "work the brand over" so as to make it look like "T. R."

## REPUBLICAN HOPE RESTS IN WILSON

Gov. Burke Declares for Democrat and Gives His Reasons.

By JOHN BURKE,  
Governor of North Dakota.

The election of Governor Wilson is the only thing that can save the Republican party. Four years of President Taft has split it in two. We have no reason to believe that he will be any different or that his second administration, if he is re-elected, will be any more satisfactory to the people than his first. His re-election will mean the division of the Republican party into many warring factions, which can only result in final dissolution of all.

The end will come quicker and just as certain if Roosevelt is elected, for he is no longer a Republican, but is the leader of a new party, at war with the Republican party, as it is with the Democratic party. On the other hand, if Wilson is elected the Roosevelt party will perish; the Republicans will reorganize their party, purge it of the baneful influence of corporate power and greed and make it again the grand old party it was in the days of Lincoln.

Louis D. Brandeis performed a real public service when he quoted the records to show that George W. Perkins is and always has been an enemy of union labor.

Wonder if Emerson was gazing upon a moose calf when several decades ago he wrote:  
"I am the owner of the sphere,  
Of the seven stars and the solar year."

## DESIGNED FOR THE FOULARD

Some Original Ideas in Skirt Which Has Approval of English Fashion Journal.

Lobelia blue foulard figured with black would make up well like this. The skirt is eased in at the waist and trimmed at foot by two folds of material trimmed at the sides by three buttons and loops.

The bodice has a vest of lace with a strip of material taken down the center, on which little black buttons

are sewn; pieces of material are taken over the shoulders and crossed in front; buttons and loops form trimming here as well as on sleeves, which are finished with plaited fringe.—London Madame.

### PREDICTION FOR THE COATS

Will Undoubtedly Be Longer and Some Changes of Importance Are Promised.

"What will the length of the coats be in the autumn and winter?"

The question was asked by an American who wanted to order her fall suit early. The reply to her was thirty-two inches, for she is a trifle below the average height. In tailored suits the demand is for jackets thirty-two or thirty-four inches long, cutaway in front, ending in a broad curve or blunt point in the back.

Some of the coats, however, are made very long in the back, almost reaching to the hem of the skirt, and cut away sharply from the waist line in the front; but these are too extreme to become popular, and in any case will only be worn by the exceptional woman who has many suits to choose from.

The most favored style is buttoned over slightly on the left side, and has the Robespierre collar and revers so arranged that they can be opened up when the weather permits. Some are made with perfectly straight-cut backs and others have a slight fullness in at the belt and a decided flare on the side seams.

Nearly all have slightly rounded or pointed corners and all show the modified cutaway effect. The Robespierre collar, with vest of some contrasting material, is very popular, and the sleeves are mostly of the set-in variety, made with a medium large armhole so that they can easily be slipped on or off.

Velvet-bound buttonholes and large ornamental buttons trim the best models.

### UNIQUE DESIGNS IN FURS

Long, Separate Coats Have the Contrasting Idea Developed in Attractive Form.

The long separate coat of fur for late fall and winter will be the 52-inch type or longer.

Side fastenings, deep collars and revers and deep cuffs will be evident. The use of contrasting fur is exemplified in nearly every model shown by well-known furriers in Paris, and the joining of the fur is made so as to give a striped effect. This is very attractive in mole skin.

Chinchilla squirrel is a Paris novelty that is being used for trimming sealskin coats and making fur sets.

The cutaway line characterizes the lower edge of long coats. A panner hint is given by a curved, deep hem that shows fur in a different direction.

Linings are just as beautiful as ever, some of the coats being lined with soft velour to make their warmth doubly assured. Brocades are in vogue and are of plain colors. Heavy plain satins are practical and rich in the dark blues, greens and golds.

## SORDID TALE OF T. R.'S FUND

Treasurer Sheldon and J. P. Morgan Tell of Millions Subscribed in 1904.

### BIG FAVORS IN RETURN

Frick, Gould and Morgan Gave \$100,000 Each—Corporations Gave 73% Per Cent. of Entire Amount Received.

John D. Archbold's statement that the Standard Oil company contributed \$100,000 to Mr. Roosevelt's campaign fund in 1904 was confirmed by George R. Sheldon, who succeeded Cornelius N. Bliss as treasurer of the Republican national committee.

Not only did the Standard Oil company give \$100,000 to elect Mr. Roosevelt president, but J. Pierpont Morgan & Co. gave \$100,000, H. C. Frick gave \$100,000 and George Gould gave another \$100,000. Mr. Sheldon testified that 73% per cent of Mr. Roosevelt's total campaign fund was contributed by corporations.

Naturally these people gave their money freely to the Roosevelt campaign fund.

Testifying that he had contributed \$150,000 to the Roosevelt campaign fund in 1904 because he was "especially interested," Mr. J. P. Morgan added, "The only interest we had was in the welfare of the public."

Mr. Morgan emphasized his devotion to Mr. Roosevelt's political fortunes by the further statement that J. P. Morgan & Co.'s usual contribution to Republican campaign funds was only \$100,000; that he never heard of any donation by his firm to the Democrats; that when Mr. Taft was a candidate in 1908 the sum subscribed was \$30,000 and that this year neither he nor his banking house had subscribed a dollar.

#### How It Was All Done.

To grasp these pregnant facts we have only to recall a little modern history. In 1904 Mr. Roosevelt had his bureau of corporations in working order. Mr. Cortelyou, lately in control of it as secretary of commerce and labor, had been made chairman of the national Republican committee. He and Cornelius N. Bliss, treasurer, were collecting money. As George R. Sheldon, Mr. Bliss' successor, says, 73% per cent of the funds received came from the menaced corporations.

If we do not find in these disclosures a sufficient explanation of J. P. Morgan & Co.'s "special interest" in Mr. Roosevelt's election, it is possible that later events may reveal it.

Mr. Roosevelt never prosecuted J. P. Morgan & Co.'s steel trust. He emphatically stopped the proceedings instituted by others against J. P. Morgan & Co.'s harvester trust. When the panic of 1907 was at its height he turned the resources of the treasury over to J. P. Morgan & Co., who used them and made money and reputation by the process. He met Gary and Frick, representing J. P. Morgan & Co.'s steel trust, before breakfast one morning and licensed them, in violation of law, to absorb the Tennessee Coal and Iron company, thus giving J. P. Morgan & Co.'s steel trust a monopoly of high grade iron ore. He put Mr. Bacon, a partner of J. P. Morgan & Co., into the state department and the diplomatic service. He made Herbert Satterlee, J. P. Morgan's son-in-law, assistant secretary of the navy. In a letter to Attorney General Bonaparte he testified feelingly to the virtues of the "Morgan interests" which have been so friendly to us. Never before was the "public welfare" so cheaply protected.

#### Extent of Morgan's Interests.

The "Morgan interests" are not confined to J. P. Morgan & Co. by any means. The Morgan interests comprehend life insurance companies, banks and trust companies, railroads and manufacturing enterprises. If the parent house increased its regular Republican contribution in 1904 because of its "special interest" we may easily imagine that the policy was widely imitated by affiliated corporations and individuals. Perhaps in this almost unexampled favor by the Morgan interests we shall find an explanation of the Roosevelt administration hostility to the Standard Oil interests, which have not always agreed with J. P. Morgan & Co. concerning "the welfare of the public."

It may be that the senate committee will be able to throw more light on this point, but it can hardly add anything to the scandal of the Morgan-Roosevelt alliance. It was Mr. Roosevelt who opened up to J. P. Morgan & Co. the possibilities of government by big business. It was Mr. Roosevelt who persuaded J. P. Morgan & Co. to plunge deeply into politics. It was Mr. Roosevelt who, consulting "the public welfare," registered the decrees of J. P. Morgan & Co. in the White House. Not until Mr. Roosevelt had lost control of the Republican machinery and the law providing for publicity of campaign contributions had gone into effect did J. P. Morgan & Co. disappear from the list of regular contributors to the colossal corruption funds of the Republican party. Are J. P. Morgan & Co. now operating politically under cover of their recent partner, George W. Perkins?—New York World.

## THIRD TERM QUACK PLANK

Fraudulent "Blanket Policy" Offered for Protection of Health and Life.

### IN INTEREST OF FAKERS

"Theodore Rex" Promises to Shield Them Against Discrimination by Educated Physicians.

The political tentacles of the third term candidate have been extended in every direction from which might be gathered voters irrespective of sex, race, color or previous condition, of all vocations, factions and trades into the Progressive fold. By specious promises cunningly adapted to each the colonel beckons them to follow with bleating approval wheresoever his belated adjutants may lead in order that Theodore Rex may again sit in the White House.

Tempting bait is thrown to the working people in the minimum wage, to the Socialists in the enlargement of government ownership, to the women in the furtherance of suffrage aspirations, to the farmer in blissful betterment of rural life, etc. Now he appeals to the quacks, those true and hitherto despised men of predatory wealth, offering them tenderest regard and freedom from prejudice "for or against." The following "blanket policy" is offered for protection of our most precious possessions—health and life.

"We favor the union of all the existing agencies for fundamental government dealing with the public health into a single national health service without discrimination against or for any one set of therapeutic methods, school of medicine or school of healing, with such additional powers as may be necessary to enable it to perform efficiently such duties in the protection of the public from preventable diseases as may be properly undertaken by the fundamental authorities, including the execution of existing laws regarding pure food, quarantine and cognate subjects, the promotion of appropriate action for the improvement of vital statistics, the extension of the registration area of such statistics and co-operation with the health activities of the various states and cities of the nation."

Thus would votes for Theodore Rex be multiplied.

#### Insults Educated Physician.

This quack plank of the Progressive platform not only insults the intelligent voter, but wounds the educated physician, in that it places the latter in the same category with empirics of high and low degree, rubbers, sun curists, magnetic and other healers and all other pretenders who fatten upon the credulity of the helpless sick and their terrified relatives. The Sun has adverted to the outrageous violation of propriety and justice which characterizes the medical laws of several states in the Union, the last instance of which we deplore in the medical regulations of the canal zone and which the bull moose platform threatens to inflict upon all the states of the Union.

These legislative enactments require all persons who propose to become physicians not only to pursue a more or less thorough course of preparatory education, but also to be trained in all branches of medicine and, besides, to be subject to a rigid examination by appointees of the state. All these serve to protect the public against ignorant pretenders and would be perfectly fair did not the very same enactments exempt the latter from the provisions applying to educated practitioners.

#### Favors for Cormorants.

Thus do our sagacious legislators stultify themselves in the interest of the cormorants to whom they grant special privileges, because, forsooth, they claim to "heal" without medicines! There is now no discrimination against "schools of medicine." Therefore the special protection demanded for them by the bull moose platform is gratuitous and intended only to entrap votes. The "healers" belong to no school. Now comes Theodore Rex and dignifies them by a special provision and, expressing a most tender regard for their sensibilities, promises to shield them against discrimination by educated physicians.

This platform would raise the quack and healer above the men who daily exemplify their personal and professional superiority by some unselfish devotion to the public weal. In his eagerness to placate the influential herd of empirics Mr. Roosevelt would have us oblivious of the fact that the educated physician is the only real altruist in the community. Instead of arousing the public conscience (T. R.'s favorite slogan) this self appointed reformer deepens the crying shame and thus exemplifies again that "under no circumstances" need he be bound by his prior professions.

President Taft has won the approval of the quacks and healers by his medical regulations of the canal zone; hence this Machiavellian policy. Future generations will substitute "Rooseveltian" for "Machiavellian." Politics make strange bedfellows indeed. Behold Taft and Roosevelt under the same blanket!—New York Sun.

# Will The REAL FREEMEN Uphold Wilson's Hands?

Woodrow Wilson has refused emphatically to accept contributions to his Campaign Fund from the Interests, from corrupting influences, from any questionable sources.

He has given us, the Democratic National Committee, to understand that he will go into the White House with clean hands or not at all.

## Who Is Getting The Money of The Trusts?

So sure has been Wilson's stand, so well known his incorruptible purpose, that no private interests have dared to approach either our candidate or his committee.

We have not been offered a penny by the trusts, and we certainly have not solicited a penny from them. The money of the Interests is being spent against Wilson. No matter for whom—we need not discuss that here—it is now common gossip that the money power of the nation is being used in an attempt to defeat Woodrow Wilson.

## What Is a "People's Campaign?"

We are addressing ourselves to the real freemen of America, the upright, Progressive Voters of the country who are doing the work of the nation and not the work of trusts and bosses.

We realize that the salvation of every righteous cause rests with you.

Often this cry of a People's Party or a People's President is raised by the very forces we seek to defeat and whom we must and will defeat. But look to our standard and our standard bearer and decide yourself as to which is the People's Campaign and must, therefore, be fought with the People's money.

## Woodrow Wilson Has Clean Hands

Woodrow Wilson is the cleanest man in national politics. He came of illustrious forefathers, who laid by blood and heredity the foundation of a future President through generation after generation of upright record.

If Wilson is to be elected it must be by clean money and there is only one source of such money—from the voters of the country who realize the importance of having a government uninfluenced by the almighty dollar.

Wilson's hands are clean. Will you uphold them?

## How Much Money Will You Give? How Much Can You Raise?

There are big campaign expenses to be met if we are to win on Election Day in November. We must tell the voters of the country about Wilson, what he is, what he has done. We must show them his record. We must show them his platform. We must point out to them the features of his platform which mean so much to this nation. This great work will cost a lot of money. We must meet the usual heavy toll necessary to present a platform and a candidate to a hundred million.

Your dollar, your \$5, your \$10, your \$20 is needed. And don't mistake—we want the man who can only afford the one dollar. We need him. We need the worker who can

only give one dollar. We believe in this kind of loyalty—it's the kind that wins.

Let every one contribute to the Woodrow Wilson Campaign by the first mail. Let's have as big a fund as the corporations can supply the other parties. For the people are mightier even in money than the Combinations—when they get together.

## A Call To Those Who Will Club Contributions

No live progressive voter can do more for Wilson's cause than to head a list with his own contribution and then to have his fellow-workers and friends swell the total with their names and money.

If you work in an office or factory, mill, warehouse, on a railroad, ranch or farm, start the ball rolling. Line up the Wilson men. Sign up as many contributions as you can. And mail to us.

## How To Contribute To The Wilson Campaign Fund

Sign the Coupon in this corner and fill in the amount you give. Then attach your money to this Coupon and mail today to the address given on the Coupon.

Issue all checks, money orders and address all contributions to C. R. Crane, Vice Chairman Finance Committee, Democratic National Committee, 900 Michigan Avenue, Chicago, Ill.

Then write a letter to this paper giving your name as a contributor and stating your reasons why you believe Woodrow Wilson should be elected President of the United States. In this way you will be listed as a Wilson contributor. A Souvenir Receipt, handsomely lithographed, well worth framing, will be sent to you. Your letter will help the fight by encouraging your friends.

## Woodrow Wilson Campaign Fund LOYALTY COUPON

To C. R. CRANE, Vice Chairman Finance Committee, The Democratic National Committee, 900 Michigan Avenue, Chicago, Illinois.

As a believer in the progressive ideals of government represented in the candidacy of Woodrow Wilson for President of the United States, and to the end that he may take the office free-handed, untrammelled, and obligated to none but the people of the country, I wish to contribute through you the sum of \$..... toward the expenses of Gov. Wilson's campaign.

## LITTLE RED ROOSTER

Brought Delos Brown and Martha Gilmore Together.

By GEORGIA SELTER.

Never having had any love affairs of her own to occupy her time, Miss Martha Brown very naturally turned to those of others. And so it came about that scarcely a visit of Cupid had occurred in Plainville for years, that she did not bring about, assist in, or at the very least, predict!

"Luella," she called one morning to the niece whom she had befriended in her orphaned youth, "come and see who this is moving into the old Fleming cottage."

Luella obligingly left her dishwashing and came to peer over her aunt's shoulder.

"Why, that," she said, "must be Martha Gilmore. I heard yesterday she had bought the place of Delos Brown. I forgot to tell you, Aunt Mariette," apologetically.

"Quite a comedown, seems to me, for old Artemus Gilmore's daughter," observed Miss Mariette crisply. "I can remember when he mother didn't care to associate with Plainville folks."

"Oh, but Martha isn't that way a bit, aunt," said Luella loyally. "I feel real sorry to think she has had to give up her old home. And she has her old Aunt Martha to care for, too."

"Well, I can't imagine what Delos Brown is thinking of to sell that cottage—his mother's old home! I supposed he had more feeling for her memory. I shouldn't think he would want to see anyone else living there."

Miss Mariette folded her hands as was her custom when sitting in judgment.

"Why should he care?" objected Luella. "He never saw his mother living at the cottage. It has stood empty for years. I suppose it will seem pleasant to have neighbors."

"And to such a brazen thing as Martha Gilmore," pursued Miss Brown, not to be interrupted.

Luella returned to her dishes without a word.

"When Aunt Mariette has been crossed nothing seems to please her."

"So You've Sold the Cottage?"

she thought. "Everybody knows Martha is as nice a girl as ever lived."

"They needn't tell me," said Miss Mariette, left alone in the sitting room, "that she hasn't set her cap for Delos Brown!"

This bachelor nephew, good looking, of excellent habits and possessing a comfortable fortune, seemed to his aunt a desirable husband for her niece, Luella Lewis.

An hour later, therefore, as the young man was busily training his grape vines over a new trellis, he beheld his caustic aunt hobbling up his garden path.

"So you've sold the cottage?" she began without preamble.

"Yes. Thought I might as well get it off my hands when I had a good chance. It was no use to me except what garden I worked."

"Well," said Aunt Mariette shortly, "if you had taken the trouble to ask my opinion before doing it, you would have saved a good many remarks!"

Delos Brown started uncomfortably. His sensitive nature dreaded the sharpness of village gossip. Perhaps that fact accounted for his remaining single despite his many virtues.

"Of course you must expect folks to talk when a girl takes pains, to settle under the very eaves of a desirable bachelor's house. She is a brazen thing, but I wouldn't expect a man to see it!"

The old lady glanced sharply at the little gate standing open in the line fence, and sniffed disapprovingly as she betook herself homeward.

Martha Gilmore, standing amid the clutter of packing boxes in the forlorn parlor, was trying desperately to keep her tears back. With a quick tap, Miss Brown entered.

"So, you've moved down town," she observed. "No, I can't sit down," she observed. "No, I can't sit down, thank you. I just came in to see how you like it here. I must say it is sort of a difficult place for a lone young woman."

Her eyes rested reflectively upon her unconscious nephew where he worked in his garden.

Martha's cheeks flamed suddenly. "My aunt is always with me, Miss Brown," she said, coldly.

"If there is anything I can do for you I hope you will feel at liberty to ask," said Miss Mariette. "Everybody has to have one such neighbor!"

Miss Mariette's eyes soon told her that her scheme had worked admirably. The little gate in the line fence was wired shut, and Martha never sat on the pleasant little south porch which faced Delos Brown's.

Martha Gilmore, with her broad hat tied low over her face, worked every day in the garden.

"I've got to raise something for winter, or we will have to have help from the town," she whispered over and over, when her back ached and her head felt dizzy from her unaccustomed labor.

And her garden did grow surprisingly. Early one morning Martha went out to look at the plants which meant so much to her.

Heading his industrious flock among her newly hoed rows was the strutting red rooster she had watched her neighbor place in his chicken yard a few days before. All about lay her tender young plants, torn and uprooted.

"Oh, go away," cried Martha, helplessly, waving her apron.

"Why, Miss Gilmore!" Delos Brown stood aghast at the havoc he had unwittingly wrought. "I supposed I had that park chicken-proof."

After much excitement they coaxed and drove the flock back into their own territory.

"And now you must let me help you repair the damages," he declared, forgetting in her apparent distress his fear of prying eyes and busy tongues.

To his astonishment, Delos found the girl very quiet and attractive. She knew a lot about gardening, too, and seemed eager to learn more.

"I declare," he murmured on his lonely porch one evening. "I declare I can't see why she is a brazen thing, as Aunt Mariette seems to think. I guess that garden means a great deal to her—more than it ought to if things were comfortable over there."

He began thinking anxiously about the long winter. "The cottage needs repairing to make it livable. I could do it as well as not without much expense. And I always have more wood from the farm than I can use. I hope she hasn't heard any of Aunt Mariette's foolish talk," he thought.

Through the dim twilight he could see Martha moving about the little lawn.

"Guess I'll go over, anyway," he said aloud, since Aunt Martha's sharp eyes could not penetrate the darkness.

"I—I came to inquire about the garden," he said, ill at ease in her presence. There was something fine in Martha's manner, even in that humble kitchen garden.

"Oh, it is better than it ever was before, thanks to you, Mr. Brown. It is really fortunate for me that my neighbor's chickens got into it!"

"But I can never quite replace it, Miss Gilmore, and that is why I want to do something else for you to even things up a little. The cottage needs repairing before cold weather. I can do it as well as not—in fact, I ought to have done it before I let you have it at all."

"Oh no!" cried Martha. "What would Miss Brown say?"

"So she has been talking to you?" groaned Delos. "I might have known it. Oh, you poor little girl!"

Martha clasped her hands in the darkness at the tenderness in his voice.

"I—did not mind," she whispered with a sob.

"Not mind?" He took her trembling hands in his own. To his joy she did not attempt to draw them away.

"Do you know, Martha," he said very softly, "how a man feels about the girl he loves? He wants to protect her from everything that is unpleasant or difficult. That is why I cannot endure your living in this poor little house and working yourself to death in this garden. I am glad the red rooster destroyed it, since he opened the gate in the line fence. Let us be married to-morrow, Martha. It is going to cause a sensation, and we may as well have it all over with at once. And I want you so much, dear."

"It is pity," she protested, hesitating.

"It is not pity," he denied, taking her in his arms. "It is love, Martha."

The sewing circle met in Miss Brown's parlors next afternoon.

"Delos Brown and Martha Gilmore are married," cried Luella, rushing in excitedly.

"Well," said Aunt Mariette, composedly, after one mental gasp. "I've said from the day she moved into the Fleming cottage that this is what would come of it!"

## Culture.

It has been said that the attainment of culture tends to allay the inflammation caused by daily routine. But true culture, that which is the result of the act of cultivation, does more. It so relates a man to his daily affairs that no inflammation arises and he observes with no less amazement than joy that he gains as much culture from the lowliest task as from the most exalted of which he is capable. When he realizes that mind and spirit are necessary, each to the other, he no longer regards his work as a laborer regards his toil. He becomes a creator; the world about him is the potter's clay, while the world within is the fair model which inspires the hand as it lovingly guides the wheel. Every object that comes into being from him is a new and fairer whole and with its creation he gains a new and fairer power.—Thomas Tapper.

## Will You Spend ONE DOLLAR to Elect Wilson President?

How deep is your conviction that this government ought to be in new hands, in clean hands?

How much are you in favor of a clean slate from Wilson and Marshall clear down the line to the very smallest offices in your locality?

The Democratic National Committee has every reason to believe that every progressive voter is willing to spend a dollar to elect Wilson and Marshall and their ticket. And that thousands are anxious to contribute to the Wilson Campaign Fund in amounts of \$2, \$5, \$10 and \$20.

To such we make our appeal. To such we must look for victory.

## Time An Important Factor

This is another case where time is money. The enemy have their funds—supplied instantly by the interests.

We have only a few days and contributions to be effective must be received at once.

There is no question of the money of the People being able to defeat the money of the Trusts.

Because it is greater even in volume and will be used in straightforward telling ways.

But to be effective it must be received and used within the next few days.

Quick action is absolutely necessary. Let us have your contribution or the list you make up from your friends and co-workers today if possible, tomorrow sure.

How Your Money Will Be Spent

Woodrow Wilson, our standard bearer, has never had the time or disposition to talk about himself.

He has never used spectacular methods to place himself in the spotlight.

His greatest work has been done without ostentation, in the most expeditious, dignified manner.

The great mass of voters do not know what a really great man Wilson is. They do not know all he has done. They do not understand all the features of his platform. We must tell them.

To educate this great nation of voters, especially the clear thinking Independent Democrats, Republicans and Progressives who choose their leader on his merits, means the expenditure of a vast amount of money.

We propose to use your dollars in just this way—judiciously, and without a penny frittered away for an unnecessary item.

We know you have confidence we will do this thing—and successfully.

## Why the Dollar Counts

In this campaign the issues lie between the forces of Representative Government and Popular Government.

In Representative Government only a part of the people have influence—those with no political faith, who spend fortunes in any direction where their own ends are furthered for money.

In Popular Government all the people have influence, because their executives and legislators do not dare to thwart the expressed will of the people.

Representative Government, as ever, this year is being supported by the money of the interests. It is being spent lavishly to give the voters a wrong impression of Wilson.

Popular Government, this year, to win, must depend on the truth being told about Wilson. We must publish his record and platform broadcast so that no one can controvert it.

Your \$1, your \$2, your \$5, your \$10 or \$20 will count and count to win if spent in this work.

## LITTLE COATS WELL LIKED

Dainty Trifles, but Just Now They Form a Really Important Part of the Wardrobe.

The little coats of bright-colored chiffon worn with lace, lingerie or chiffon frocks, are still at the height of their popularity. They are not by any means easy to copy, and that fact has a lot to do with their remaining somewhat exclusive novelties. One of the most successful frocks seen lately was of pale sage-blue nixon, with a delightful little coat of chiffon taffetas in blue of a slightly deeper tone. A narrow frill of silk edged lace, which finished at the waist, at the sides and back.

The fronts were cut into long points and were crossed low down at the waist. Soft frills of shaded lace came down each side of the front of the coat and frills of the same lace decorated the elbow sleeves. There was a high Robespierre collar of black satin finished in front with crystal buttons, and touches of black also appeared on the sleeves and front of the coat. With this frock was worn a large picture hat of shaded lace, with a big aigrette of gauze roses in the front.

Another striking dress was of white lace, exquisite in its extreme simplicity, over which was worn a long sleeveless coat of bright yellow silk. The coat was very plainly made with no trimming but a very little edging of the silk arranged in close kilting, but the whole effect was most strikingly original.

Kayser, our genial grocerman, and Mrs. Sarah Morehouse, which took place at the bride's home, west of town, Wednesday evening. This wedding was a surprise to the friends of both parties principally concerned. However, the congratulations and good

wishes extended to them are none the less sincere.

### VOTE FOR M. E. MERGER.

### Northern Methodist Conference Would Join St. Louis Conference.

Two important actions were taken by Friday's session of the Missouri conference of the Methodist Episcopal church, now in session at Hamilton, Mo. A vote was taken on the proposed merger of the North Missouri conference with the St. Louis conference, making a single organization of the entire state. Eight votes were cast against the proposition and seventy-nine in favor. This proposed merger is in accord with the "enabling act" passed by the general conference held in Minneapolis last spring.

The question will now be voted on by the St. Louis conference at its next meeting, which takes place in the spring and if it accepts the proposed consolidation the bishops of the two conferences will decide the matter.

A consolidation of the two conferences would improve the educational advantages in this state, as the single conference would secure the combined financial support of its members, who are now patronizing foreign educational institutions.

The other action taken by the conference was the admission to full membership of five candidates. Those admitted included Alva C. Brown, Maitland; S. C. Rear, LaPlata; L. L. Smith, Filmore; O. J. Wilson, Mercer, and L. E. Snyder, Wesley church of St. Joseph.

Misses Anna and Frances Eickholt returned to their home in Clyde Saturday morning, accompanied by their little nephew, Leonard Eickholt, who had been a patient at St. Francis hospital.

Mr. and Mrs. A. A. Brewer went to St. Joseph Friday evening. Mrs. Brewer will visit with her parents in that city while Mr. Brewer goes to Grant City to attend circuit court.

Mrs. C. P. Anderson and children of the Ream hotel went to Parnell Saturday to spend Sunday with Mrs. Anderson's mother, Mrs. H. H. Conrad.

## EIGHT HUNDRED

THAT'S THE NUMBER OF TEACHERS COMING TO MARYVILLE.

## BIGGEST EVENT EVER HERE

Superintendent Oakerson's Letter to Teachers—Exhibits by Students of the County Will Be Great.

County Superintendent Oakerson is mailing out Saturday a list of instructions to the teachers of Nodaway county for the teachers' meeting to be held in Maryville at the Normal auditorium, on November 7, 8 and 9. This teachers' meeting will be the biggest educational meeting ever held in Maryville, as all of the teachers of Nodaway, Holt, Atchison, Andrew, Worth and Gentry counties are to take part.

With the letters sent out by Mr. Oakerson there are enclosed programs of the teachers' association. The following is a copy of the letter sent out to the teachers of this county.

Enclosed find program of the teachers' association to be held November 7-9. Invite and urge the school officers and patrons of your district to attend the meeting on Thursday and hear Mr. Herman E. Pearce on health, sanitation and ventilation. Every school officer in the county should hear him. I would be glad to have the patrons attend each day. In preparing your exhibit of school work, mark it as follows: Name of your school, name of the pupil, grade of the pupil. I trust that you will be able to bring an exhibit of good work from your school. Bring your school exhibit directly to the Normal building. We will have the biggest and best educational meeting ever held in Nodaway county. Eight hundred teachers will be present. Come early, you are a member of a committee to help entertain visiting teachers.

I am also inclosing the first quarter's examination questions. They should be given the last week of the second month of school.

The boys and girls enrolled in the Nodaway County Agricultural and Domestic Science association will exhibit their work during the teachers' association. Urge all of the boys and girls of your district to bring or send their exhibits in. The articles for exhibit must be entered either November 6 or 7. Invite your patrons in to see this exhibit. It will be worth while for them to come.

Some more questions. Answer them to yourself:

1. Have you read the outline of work during the past week? (If you have lost yours write me and I will mail you another.)

2. Are your pupils regularly classified? Will you have the quarter's work done at the end of the month? Are you taking your pupils too fast? Do they thoroughly understand the work gone over?

3. Have you looked into the "school toilets" during the past week? Are they in respectable condition? (I have found some that are not.) How will I find the ones on your school ground?

4. Do you have the lessons better prepared than the pupils do? (You should do so.)

5. Is each pupil of a class attentive during a recitation or do you only have the attention of the pupil who is reciting? (You should have the attention of each pupil in each class from the first grade up during each recitation.)

## DO YOU WEAR GLASSES?

IF SO are you satisfied that they have been fitted to your eyes in a correct and proper manner?

HAVE THEY GIVEN YOUR EYES that relief which you expected they would?

ARE YOUR EYE MUSCLES following their natural laws as they should do with correctly fitted glasses.

WOULD YOU LIKE MY OPINION? I will give it to you willingly, FREE OF CHARGE. MY SYSTEM of Eyesight Fitting has no superior.

MY LONG YEARS' EXPERIENCE is behind this system. PRICES MODERATE.

## CAMPAIGN OPENED

A GOOD SIZED CROWD IN ATTENDANCE FOR DEMOCRATIC MEETING

## RAINEY AND JOST TONIGHT

Congressman Booher and Judge Wallace Spoke This Afternoon at the Meeting.

The opening of the Democratic county campaign occurred Saturday afternoon in Maryville and a good sized crowd, one that filled the circuit court room, was in attendance. Many Democrats from over the county were in attendance and more would have been here if the roads were in better condition.

Congressman C. F. Booher of Savannah and Judge W. H. Wallace of Kansas City were the speakers this afternoon. John M. Dawson, county chairman, presided at the meeting, and Congressman Booher was introduced by Charles McCaffrey, and Judge Wallace by Wm. G. Sawyers.

### Rainey and Jost Tonight.

Congressman Rainey of Illinois and Mayor Henry L. Jost of Kansas City will be the speakers at the meeting to be held in the court house this evening. Both of the speakers will arrive in the city on the Wabash evening train from Gallatin, where they spoke this afternoon. Congressman Rainey is one of the big political speakers of the country, and Mayor Jost, the former Nodaway county boy, is rapidly becoming one of the big men of Missouri. All should turn out to hear these distinguished men.

### The Speeches This Afternoon.

Congressman Booher spoke on the political issues of the day, and especially did his exposition of the Payne-Aldrich tariff have a telling effect. He also said Roosevelt, he thought, was a better man than Taft made him out to be, and that Taft was not such a double-header as Roosevelt would have us believe, but that both had associations and were surrounded with influences that were anything but desirable, and that the people could not but think such constant associations would corrupt, and they undoubtedly did corrupt their administrations. The relief and remedy is Wilson who will have none of the bosses and their domination.

Judge Wallace also made a Democratic speech, advocating the election of Wilson and the ticket. His main speech, however, was for the adoption of the constitutional amendment favoring honest elections and opposing the single tax amendment.

In reference to honest elections he says that never in the history of the country was there so much fraud in an election as was in the St. Louis election two years ago, and two years ago was in line with other years, only worse. In this last election as many as 1,700 voters registered and voted in one precinct, when 300 is about all that can be voted in one precinct in a day. The amendment he advocates provides that a man sign his name again when he votes. This will stop some of the fraud. Another provision is to get judges known to be honest from other precincts and put them in the slum wards where so much fraud is practiced.

His exposition of the single tax amendment was much the best heard this year. He says it means confiscation of farm lands, because the taxes would be so high that a rich man would not own the land and a poor man could not. He said this was the object of single tax, and some of the advocates admitted that they did not believe any man had a right to own land—that it all should be common property and belong to the state.

## High School Notes

Rev. Miles W. Smith of Tarkio, who was a college friend of Prof. Westbrook, addressed the students at assembly Wednesday morning. He had for a subject "The Study of Literature," and centered his thoughts on Tennyson and "The Holy Grail." Although the address was short it was very impressive, especially to the seniors, who had just finished the study of one of Tennyson's poems.

The spring seniors were called to a meeting last Monday for the purpose of organizing the class. The following officers were elected: Walter Fraser, president; Martha Denny, vice president; Walter Dersch, secretary; Halley Ford, treasurer. There are thirty-two members in the class, which is the largest in the history of the school.

The mid-year seniors have purchased gray sweaters with the figures 13 in red placed on the left side.

An athletic association has been formed and a committee consisting of Prof. Westbrook and Prof. Israel of the faculty and Robert Brown, Harold Staples and Howard Leech of the student body, met Tuesday to draw up the constitution and by-laws. There is every reason to believe that this department of the school will have a very successful year, for many of the students have expressed their intention of taking up this work.

The high school is to have an orchestra this year. A call was made for those interested in this work, and a seven piece orchestra is the result. The following is the instrumentation: Mildred Robinson, piano; Verne Thomas and Katherine Carpenter, violins; Ora Quinn, clarinet; Hazel Vandervort, cornet; Helen Helpley, drum; Walter Dersch, trombone.

The students were very enjoyably entertained at assembly Thursday morning by Misses Marie Jones and Lottie Perrin. Miss Jones, accompanied on the piano by Miss Perrin, sang Tosti's "Good-By," and was encored three times.

The basket ball season was opened Thursday for the high school, when the Tigers of the high school defeated the Normal second team in the latter's gym. The final score was 10 to 2. The line-up: Tigers, David, guard; Montgomery, guard; Ford, forward; Murray, forward; Thompson, center. Normal, Scott, guard; Woodard, guard; Lomar, forward; Hanna, forward; Watson, center.

The visitors of the week were Mr. Fleming Carpenter and Rev. Harrel.

## POLITICAL NOTES.

(By Democratic State Committee).

The consumers of woolen goods in this country pay a tariff tax of \$203,382,493 per year. This is equal to a per capita tax of \$2.17. So much for schedule K. Taft said it was indefensible—but he vetoed a bill to repeal it.

The people of the United States consumed 7,563,000,000 pounds of sugar last year. The tariff tax was 1½ cents per pound. Upon this one article of daily necessity the American people paid into the coffers of the sugar trust in a single year the sum of \$115,000,000. Does this hit you?

The injuries sustained by State Auditor John P. Gordon in an automobile accident some weeks ago are so serious that his friends fear he will be unable to take any part in the campaign. But the Missouri taxpayers who appreciate his public services will look after his interests at the polls in November.

If John C. McKinley is so anxious to provide cheap school books for the children, why doesn't he advocate a reduction in the prohibitive tariff on book paper and printing materials? Does he want these trusts to get an additional graft out of the state through that convict labor printing plant?

## Wilson More of a Favorite.

New York, Oct. 12.—Election betting took a boost yesterday, with Wilson quotations of 4 to 1 in Wall street, and with the announcement of his quotations on the presidential candidates by James O'Leary, the Chicago bookmaker. O'Leary's slate is:  
Wilson, 2 to 5.  
Taft, 2 to 1.  
Roosevelt, 4 to 1.  
Debs, 3,000 to 1.  
Chafin, 5,000 to 1.

A Wall street betting commissioner yesterday showed \$4,000 which he was anxious to place on Wilson against \$1,000. The short end was not covered, only \$200 of the \$1,000 being put out. The \$4,000 was sent down into the financial district by a Democratic contractor, and betting men said it was Tammany money.

One betting commissioner said that at this time in the 1908 campaign he had handled \$100,000. This year his estimate of bets placed was \$10,000. The odds stand at 3 to 1 against Taft and 4 to 1 against Roosevelt. There was one offer of 1 to 3 that Wilson would receive a greater popular vote than Roosevelt and Taft combined.

Several small bets of \$200 or \$300 each were reported at 3 to 1 on Sulzer.

# NO AMERICAN LOAN FOR WAR

Application for Large Amount Draws  
Curt Refusal From Morgan.

## TURKISH TREASURY IS EMPTY

Negotiations Abruptly End When  
Fight Began—Russia Preparing  
to Assemble Black Sea  
Fleet.

New York, Oct. 12.—"Millions for peace; not a cent for war."  
This in effect was the curt message that has just found its way from the great banking house of J. P. Morgan & Co. to the sublime porte at Constantinople.

Only a few days previously the Turkish finance minister had caused inquiry to be made here if New York financiers were willing and able to loan the Ottoman government \$50,000,000 with which partially to rehabilitate its finances after the long struggle with Italy had left them in bad condition. The Morgan house consulted with the National City bank, Kuhn, Loeb & Co., and the First National (a Morgan interest) and gave assurances that the required loan easily could be placed here.

Stopped Correspondence.  
Business associates of Mr. Morgan repeated that the Turkish negotiation quickly would have been consummated had not the Balkan countries risen in fierce war against Turkey. As soon as this occurred Mr. Morgan stopped all correspondence on the subject of the loan. When another "feeler" reached him from responsible sources in Europe it is said that he delivered the stern ultimatum quoted. In the financial district the Morgan ultimatum was generally accepted as indicating an early cessation of hostilities in the Levant, because it is known that the balance of power between the rival European nations is now so poised that no group of financiers across the Atlantic could be induced to make the loan even if their governments should permit them to do so.

Turkey is bankrupt and cannot sustain herself through any other considerable struggle even with armies so weak as those of the Balkans unless she can borrow millions.

One of Mr. Morgan's associates said that just as soon as Turkey agrees to a peaceable settlement of the Balkan troubles the American group will reopen the \$50,000,000 loan negotiations.

## Will Support Turkey.

St. Petersburg, Oct. 12.—Russia is preparing to mobilize her Black sea fleet in order to support representations made by Turkey to Russia regarding the restrictions of traffic in grain.

## May Involve Great Powers.

Vienna, Oct. 12.—That Austria-Hungary is making military preparations in anticipation that the Balkan conflagration may involve the larger powers, was indicated by the reply of the minister of finance to the Hungarian delegation to a criticism by a socialist that the extraordinary military credits requested by the government implied warlike designs. While protesting that the government's policy was a most pacific one, the minister said:

"We are of the opinion that international deliberations regarding the consequences of war in the Balkans may ensue, and in that case we probably would make our voice heard more successfully if we were well armed."

## GOT DIVORCE IN RECORD TIME

# FIRE DESTROYS OIL STEAMERS

Bursting Boiler Starts Conflagration  
Which Spread Rapidly.

## FIVE LOADED VESSELS ABLAZE

Sea of Oil Continues to Burn After  
Destruction of Ships—Captains  
and Crews Leap into Water  
—One Man Killed.

Bayonne, N. J., Oct. 11.—One man burned to death, one seriously injured and one missing is the total of a fire which started at 8 o'clock p. m. on board the oil tank steamer "Dunholme," at the docks of the Standard Oil company.

The property damage is estimated at \$500,000. Two steamers and a schooner were burned almost to the water's edge, and two other steamers and two piers were badly damaged.

Burning Oil is Scattered.  
A bursting boiler aboard the steamer Dunholme, which was about to sail for England, with 90,000 barrels of oil, is believed to have started the fire, which soon communicated to one of the ship's tanks. This exploded, scattering burning oil to every part of the deck and over the deck of the Hohenzollern, loaded with 70,000 barrels of oil in bulk.

Tied to the dock was the Hohenzollern, and the schooner Coronet, loaded with 30,000 barrels of oil. Almost immediately the Hohenzollern and Coronet were burning.

Tugboats came and threw a hawser to the Dunholme and she was dragged half a mile from shore. At the same time a hawser was thrown to the Hohenzollern and her crew of 22 men leaped into the water and reached shore.

Largest Tank Steamer in World.  
As the Dunholme was being dragged to sea, the heat was such that the captain, his wife and daughter and the members of the crew ran to the stern of the ship and dived into the water. All reached shore safely with the exception of the ship's carpenter, who was burned to death.

The Narragansett, the largest tank steamer in the world and loaded with 100,000 barrels of oil, was next to catch. Then the flames leaped over to the steamship Saxaline, which had 70,000 barrels of oil in her holds. Piers 3 and 4 were badly damaged.

Two hours after the fire started the Dunholme, the Hohenzollern and the Coronet had burned to the water's edge, but the sea of oil in their holds continued to blaze.

The Narragansett and the Saxaline were both badly damaged.

## Blew Safe in Store.

Hamilton, Mo., Oct. 11.—The safe in the store of the Martin Mercantile company here was blown open at 3 o'clock in the morning with nitroglycerin. # SUBMARINE IS WRECKED

Rising Sea Tore Little Craft From  
Its Moorings.

## TWO MEMBERS OF CREW PERISH

Giant Waves Swept Men From Deck—  
Vessel Abandoned After Hard  
Fight—Aground in Three  
Feet of Water.

Watsonville, Cal., Oct. 12.—G. A. Schroeder of Milwaukee and T. J. Turbett of Newark, N. J., seamen on board the United States submarine F-1, were drowned when a giant wave swept over the little craft, which later went aground near Port Watsonville. The extent of the damage to the submarine could not be determined. Low tide left it upright in the sand in three feet of water.

Schroeder and Turbett were on watch at daybreak, with another seaman named "Blinky" when a rising sea tore the submarine from its moorings to a buoy.

## Washed Overboard.

Before the seamen could get control of the steering gear, the deck was engulfed in a wave and Schroeder and Turbett were carried overboard. The third seaman saved himself by grasping the railing.

The 13 remaining members of the boat's crew fought for six hours to save the craft from being beached. When it was seen that the vessel was being driven inland irresistibly it was abandoned, and a few moments later the submarine diver rammed its nose into the sand.

The submarine was in command of Lieut. James B. Howell. The F-1 is the holder of the world's record for submarine diving, having gone down 283 feet in San Francisco bay, September 5, 1912. The ship was christened the Carp, and was renamed November 17, 1911.

The trouble occurred when the strikers gathered at a hillside settlement opposite the Utah Copper company's pit, where a steam shovel was put in operation.

# CASCARETS CLEANSE LIVER AND BOWELS

The Millions of Cascaret Users Never  
Have Headache, Constipation, Bil-  
iousness of Sick Stomach.

It is more necessary that you keep your bowels, liver and stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing too—Adv.

## SOMERSAULTS OF ROOSEVELT

William Jennings Bryan Analyzes Record of Third Term Candidate

### HIS SUDDEN CONVERSION

No Message in Behalf of People's Cause in Seven and a Half Years  
T. R. Was President.

By WILLIAM JENNINGS BRYAN.  
Solomon says that the borrower is servant unto the lender. If this applies to one who borrows ideas Mr. Roosevelt does not recognize the obligation, for he has not only borrowed from the Democratic party as few public men have borrowed from an opposing party, but he has shown himself strangely ungrateful for the ideas taken. Of course it will not be contended that an idea can be patented. It is the only thing, in fact, that is not subject to monopoly.

Even Mr. Perkins, with all his fondness for the trust, would not contend that a monopoly in ideas could be formed and made subject to regulation by a bureau appointed by the president. Mr. Roosevelt, however, has won his popularity by the advocacy of things previously advocated by the Democrats, and still he is all the while assailing the Democrats bitterly and has shown toward them a hostility that is hard to explain.

To show the extent of his borrowing, let me enumerate some of the things which he now advocates that were advocated by the Democrats at an earlier date.

### Shall the People Rule?

Take his paramount issue of the present campaign—namely, the rule of the people. The platform adopted by the Democratic national convention at Denver four years ago contained the following:

"Shall the people rule?" is the overwhelming issue which manifests itself in all the questions now under discussion."

Here is the very phrase which he employs, and it is not only declared to be an issue, but the overwhelming issue. It was dwelt upon by the candidates and by other speakers during the campaign, so that Mr. Roosevelt, then president, may be assumed to have had notice of it. He not only refused to admit that it was the paramount issue, but he displayed extraordinary activity in urging upon the country Mr. Taft, whom he has since declared to be the agent of bosses and the enemy of popular government.

It would seem that he ought to make some slight acknowledgment of his indebtedness to the Democratic party for suggesting this issue to him. At least, he might put the issue in quotation marks.

He is now advocating the direct election of senators, but if he ever expressed himself in favor of this reform earlier than two years ago the fact has escaped my observation, and I have not only watched carefully, but waited anxiously, for some favorable expression from him.

Long Fight For Popular Election of Senators.

The Democratic party began the fight for the popular election of senators twenty years ago this summer, when a Democratic house of representatives at Washington passed for the first time a resolution submitting the necessary amendment. Since that time a similar resolution has been passed by the house in five other congresses—first, in 1894 by another Democratic house; then, after two congresses had elapsed, by three Republican houses, and, last, by the present Democratic house. During the twenty years the reform has been endorsed in three Democratic platforms, the platforms of 1900, 1904 and 1908, and it has been endorsed by the legislatures of nearly two-thirds of the states. Mr. Roosevelt must have known of the effort which was being made by the people to secure the popular election of senators, and yet he took no part in the fight. During this time he was president for seven and one-half years, and it is quite certain that a ringing message from him would have brought victory to the people's cause, but no message came. Four years ago the convention which he controlled and which nominated Mr. Taft rejected, by a vote of seven to one, a resolution endorsing this reform.

Still Mr. Roosevelt did not say anything. He neither rebuked the Republican convention nor endorsed the strong plank which was included in the Deaver platform. Even Mr. Taft went so far during the campaign of 1908 as to say that PERSONALLY he was INCLINED to favor the popular election of senators by the people, but Mr. Roosevelt did not even indicate an intention in that direction. Now, when the reform is practically secured—the amendment being before the states for ratification—he declares himself in favor of it. Would it not be fair for him to indicate in some way his appreciation of the long continued fight waged by the Democrats in behalf of this reform before he espoused it?

### T. R. and the Income Tax.

Mr. Roosevelt is in favor of an income tax. How long since? His first endorsement of it was during his second term, and then it was suggested as a means of limiting swollen fortunes and not as a means of raising revenue. The Democratic party in-

cluded an income tax provision in the Wilson law of 1894. When this provision was declared unconstitutional by the supreme court by a majority of one the Democratic party renewed the fight and has contended for the income tax in three national campaigns. In 1908 the Democratic platform demanded the submission of an amendment specifically authorizing an income tax—the very amendment now before the states for ratification.

Mr. Roosevelt's candidate, Mr. Taft, declared during the campaign that an amendment was not necessary, and Mr. Roosevelt never made any argument in favor of the amendment or in favor of the principle embodied in it. The amendment has now been ratified by thirty-four states; but, so far as I know, Mr. Roosevelt has never made a speech in favor of its ratification nor, since the submission of the amendment, made a speech urging an income tax as a part of our fiscal system. It would not require any great stretch of generosity on his part to credit the Democratic party with priority in the advocacy of this reform.

Not Always For Railroad Regulation.  
Mr. Roosevelt is now an advocate of railroad regulation. When did he commence? The Democratic party in its platforms of 1896, 1900 and 1904 demanded an extension of the powers of the interstate commerce commission. Up to 1904 Mr. Roosevelt never discussed the subject of railroad regulation officially or in public speech, so far as I have been able to find. Although nominated without opposition in the convention of 1904, his platform contained no promise of railroad regulation. By its attitude on the railroad question the Democratic party alienated the support of those railway officials who counted themselves Democrats, and Mr. Roosevelt, both in 1900, when he was a candidate for vice-president, and in 1904, when he was a candidate for president, had the benefit of the support of those ex-Democrats. It was in 1904 that he wrote his famous letter to Mr. Harriman and in the state of New York profited by the campaign fund that Mr. Harriman raised.

When after 1904 Mr. Roosevelt took up the subject of railroad regulation he found more hearty support among the Democrats in the senate and house than among the Republicans, so that he has reason to know that the Democratic party has for a long time planted itself boldly upon the people's side on the subject of railroad regulation.

Under the circumstances we might expect some complimentary reference to our party's attitude instead of anathemas.

### T. R.'s Complete Somersault.

On the subject of publicity as to campaign contributions he has not only adopted the Democratic position, but he has been compelled to turn a complete somersault in order to do so. In 1908 the Democratic platform demanded the publication before election of the names of individual contributors and the amounts contributed. Mr. Roosevelt at that time endorsed Mr. Taft's contention that the publication should be deferred until after the election, and even went so far as to give reasons for believing that it would be improper to make the publication before the election. Two years later he declared in favor of publicity before and after the election, landing on the Democratic side shortly before the law was enacted carrying out the Democratic platform on this subject. Here, surely, he ought to praise the Democratic party for the pioneer work it has done in purifying politics.

Here are a few of the things which bear the Democratic brand, and with all of his experience on the plains he will not be able to "work the brand over" so as to make it look like "T. R."

## REPUBLICAN HOPE RESTS IN WILSON

Gov. Burke Declares for Democrat and Gives His Reasons.

By JOHN BURKE,  
Governor of North Dakota.

The election of Governor Wilson is the only thing that can save the Republican party. Four years of President Taft has split it in two. We have no reason to believe that he will be any different or that his second administration, if he is re-elected, will be any more satisfactory to the people than his first. His re-election will mean the division of the Republican party into many warring factions, which can only result in final dissolution of all.

The end will come quicker and just as certain if Roosevelt is elected, for he is no longer a Republican, but is the leader of a new party, at war with the Republican party, as it is with the Democratic party. On the other hand, if Wilson is elected the Roosevelt party will perish; the Republicans will reorganize their party, purge it of the baneful influence of corporate power and greed and make it again the grand old party it was in the days of Lincoln.

Louis D. Brandeis performed a real public service when he quoted the records to show that George W. Perkins is and always has been an enemy of union labor.

Wonder if Emerson was gazing upon a moose calf when several decades ago he wrote:  
"I am the owner of the sphere,  
Of the seven stars and the solar year."

## DESIGNED FOR THE FOULARD

Some Original Ideas in Skirt Which Has Approval of English Fashion Journal.

Lobelia blue foulard figured with black would make up well like this. The skirt is eased in at the waist and trimmed at foot by two folds of material trimmed at the sides by three buttons and loops.

The bodice has a vest of lace with a strip of material taken down the center, on which little black buttons

are sewn; pieces of material are taken over the shoulders and crossed in front; buttons and loops form trimming here as well as on sleeves, which are finished with plaited frills.—London Madame.

## PREDICTION FOR THE COATS

Will Undoubtedly Be Longer and Some Changes of Importance Are Promised.

"What will the length of the coats be in the autumn and winter?"

The question was asked by an American who wanted to order her fall suit early. The reply to her was thirty-two inches, for she is a trifle below the average height. In tailored suits the demand is for jackets thirty-two or thirty-four inches long, cutaway in front, ending in a broad curve or blunt point in the back.

Some of the coats, however, are made very long in the back, almost reaching to the hem of the skirt, and cut away sharply from the waist line in the front; but these are too extreme to become popular, and in any case will only be worn by the exceptional woman who has many suits to choose from.

The most favored style is buttoned over slightly on the left side, and has the Robespierre collar and revers so arranged that they can be opened up when the weather permits. Some are made with perfectly straight-cut backs and others have a slight fullness in at the belt and a decided flare on the side seams.

Nearly all have slightly rounded or pointed corners and all show the modified cutaway effect. The Robespierre collar, with vest of some contrasting material, is very popular, and the sleeves are mostly of the set-in variety, made with a medium large armhole so that they can easily be slipped on or off.

Velvet-bound buttonholes and large ornamental buttons trim the best models.

## UNIQUE DESIGNS IN FURS

Long, Separate Coats Have the Contrasting Idea Developed in Attractive Form.

The long separate coat of fur for late fall and winter will be the 52-inch type or longer.

Side fastenings, deep collars and revers and deep cuffs will be evident. The use of contrasting fur is exemplified in nearly every model shown by well-known furriers in Paris, and the joining of the fur is made so as to give a striped effect. This is very attractive in moleskin.

Chinchilla squirrel is a Paris novelty that is being used for trimming sealskin coats and making fur sets.

The cutaway line characterizes the lower edge of long coats. A pannier hint is given by a curved, deep hem that shows fur in a different direction.

Linings are just as beautiful as ever, some of the coats being lined with soft velvet to make their warmth doubly assured. Brocades are in vogue and are of plain colors. Heavy plain satins are practical and rich in the dark blues, greens and golds.

## SORDID TALE OF T. R.'S FUND

Treasurer Sheldon and J. P. Morgan Tell of Millions Subscribed in 1904.

### BIG FAVORS IN RETURN

Frick, Gould and Morgan Gave \$100,000 Each—Corporations Gave 73 1/2 Per Cent. of Entire Amount Received.

John D. Archbold's statement that the Standard Oil company contributed \$100,000 to Mr. Roosevelt's campaign fund in 1904 was confirmed by George R. Sheldon, who succeeded Cornelius N. Bliss as treasurer of the Republican national committee.

Not only did the Standard Oil company give \$100,000 to elect Mr. Roosevelt president, but J. Pierpont Morgan & Co. gave \$100,000, H. C. Frick gave \$100,000 and George Gould gave another \$100,000. Mr. Sheldon testified that 73 1/2 per cent of Mr. Roosevelt's total campaign fund was contributed by corporations.

Naturally these people gave their money freely to the Roosevelt campaign fund.

Testifying that he had contributed \$150,000 to the Roosevelt campaign fund in 1904 because he was "especially interested," Mr. J. P. Morgan added, "The only interest we had was in the welfare of the public."

Mr. Morgan emphasized his devotion to Mr. Roosevelt's political fortunes by the further statement that J. P. Morgan & Co.'s usual contribution to Republican campaign funds was only \$100,000; that he never heard of any donation by his firm to the Democrats; that when Mr. Taft was a candidate in 1908 the sum subscribed was \$20,000 and that this year neither he nor his banking house had subscribed a dollar.

#### How It Was All Done.

To grasp these pregnant facts we have only to recall a little modern history. In 1904 Mr. Roosevelt had his bureau of corporations in working order. Mr. Cortelyou, lately in control of it as secretary of commerce and labor, had been made chairman of the national Republican committee. He and Cornelius N. Bliss, treasurer, were collecting money. As George R. Sheldon, Mr. Bliss' successor, says, 73 1/2 per cent of the funds received came from the menaced corporations.

If we do not find in these disclosures a sufficient explanation of J. P. Morgan & Co.'s "special interest" in Mr. Roosevelt's election, it is possible that later events may reveal it.

Mr. Roosevelt never prosecuted J. P. Morgan & Co.'s steel trust. He emphatically stopped the proceedings instituted by others against J. P. Morgan & Co.'s harvester trust. When the panic of 1907 was at its height he turned the resources of the treasury over to J. P. Morgan & Co., who used them and made money and reputation by the process. He met Gary and Frick, representing J. P. Morgan & Co.'s steel trust, before breakfast one morning and licensed them, in violation of law, to absorb the Tennessee Coal and Iron company, thus giving J. P. Morgan & Co.'s steel trust a monopoly of high grade iron ore. He put Mr. Bacon, a partner of J. P. Morgan & Co., into the state department and the diplomatic service. He made Herbert Satterlee, J. P. Morgan's son-in-law, assistant secretary of the navy. In a letter to Attorney General Bonaparte he testified feelingly to the virtues of the "Morgan interests which have been so friendly to us." Never before was the "public welfare" so cheaply protected.

#### Extent of Morgan's Interests.

The "Morgan interests" are not confined to J. P. Morgan & Co. by any means. The Morgan interests comprehend life insurance companies, banks and trust companies, railroads and manufacturing enterprises. If the parent house increased its regular Republican contribution in 1904 because of its "special interest" we may easily imagine that the policy was widely imitated by affiliated corporations and individuals. Perhaps in this almost unexampled favor by the Morgan interests we shall find an explanation of the Roosevelt administration hostility to the Standard Oil interests, which have not always agreed with J. P. Morgan & Co. concerning "the welfare of the public."

It may be that the senate committee will be able to throw more light on this point, but it can hardly add anything to the scandal of the Morgan-Roosevelt alliance. It was Mr. Roosevelt who opened up to J. P. Morgan & Co. the possibilities of government by big business. It was Mr. Roosevelt who persuaded J. P. Morgan & Co. to plunge deeply into politics. It was Mr. Roosevelt who, consulting "the public welfare," registered the decrees of J. P. Morgan & Co. in the White House.

Not until Mr. Roosevelt had lost control of the Republican machinery and the law providing for publicity of campaign contributions had gone into effect did J. P. Morgan & Co. disappear from the list of regular contributors to the colossal corruption funds of the Republican party. Are J. P. Morgan & Co. now operating politically under cover of their recent partner, George W. Perkins?—New York World.

## THIRD TERM QUACK PLANK

Fraudulent "Blanket Policy" Offered for Protection of Health and Life.

"Theodore Rex" Promises to Shield Them Against Discrimination by Educated Physicians.

The political tentacles of the third term candidate have been extended in every direction from which might be gathered voters irrespective of sex, race, color or previous condition, of all vocations, factions and trades into the Progressive fold. By specious promises cunningly adapted to each the colonel beckons them to follow with bleating approval wheresoever his belated adjutants may lead in order that Theodore Rex may again sit in the White House.

Tempting bait is thrown to the working people in the minimum wage, to the Socialists in the enlargement of government ownership, to the women in the furtherance of suffrage aspirations, to the farmer in blissful betterment of rural life, etc. Now he appeals to the quacks, those true and hitherto despised men of predatory wealth, offering them tenderest regard and freedom from prejudice "for or against." The following "blanket policy" is offered for protection of our most precious possessions—health and life.

"We favor the union of all the existing agencies for fundamental government dealing with the public health into a single national health service without discrimination against or for any one set of therapeutic methods, school of medicine or school of healing, with such additional powers as may be necessary to enable it to perform efficiently such duties in the protection of the public from preventable diseases as may be properly undertaken by the fundamental authorities, including the execution of existing laws regarding pure food, quarantine and cognate subjects, the promotion of appropriate action for the improvement of vital statistics, the extension of the registration area of such statistics and co-operation with the health activities of the various states and cities of the nation."

Thus would votes for Theodore Rex be multiplied.

#### Insults Educated Physician.

This quack plank of the Progressive platform not only insults the intelligent voter, but wounds the educated physician, in that it places the latter in the same category with empirics of high and low degree, rubbers, sun curists, magnetic and other healers and all other pretenders who fatten upon the credulity of the helpless sick and their terrified relatives. The Sun has adverted to the outrageous violation of propriety and justice which characterizes the medical laws of several states in the Union, the last instance of which we deplore in the medical regulations of the canal zone and which the bull moose platform threatens to inflict upon all the states of the Union.

These legislative enactments require all persons who propose to become physicians not only to pursue a more or less thorough course of preparatory education, but also to be trained in all branches of medicine and, besides, to be subject to a rigid examination by appointees of the state. All these serve to protect the public against ignorant pretenders and would be perfectly fair did not the very same enactments exempt the latter from the provisions applying to educated practitioners.

#### Favors for Cormorants.

Thus do our sagacious legislators stultify themselves in the interest of the cormorants to whom they grant special privileges, because, forsooth, they claim to "heal" without medicines! There is now no discrimination against "schools of medicine." Therefore the special protection demanded for them by the bull moose platform is gratuitous and intended only to entrap votes. The "healers" belong to no school. Now comes Theodore Rex and dignifies them by a special provision and, expressing a most tender regard for their sensibilities, promises to shield them against discrimination by educated physicians.

This platform would raise the quack and healer above the men who daily exemplify their personal and professional superiority by some unselfish devotion to the public weal. In his eagerness to placate the influential hord of empirics Mr. Roosevelt would have us oblivious of the fact that the educated physician is the only real altruist in the community. Instead of arousing the public conscience (T. R.'s favorite slogan) this self appointed reformer deepens the crying shame and thus exemplifies again that "under no circumstances" need he be bound by his prior professions.

President Taft has won the approval of the quacks and healers by his medical regulations of the canal zone; hence this Machiavellian policy. Future generations will substitute "Rooseveltian" for "Machiavellian." Politics make strange bedfellows indeed. Behold Taft and Roosevelt under the same blanket!—New York Sun.

## Will The REAL FREEMEN Uphold Wilson's Hands?

Woodrow Wilson has refused emphatically to accept contributions to his Campaign Fund from the Interests, from corrupting influences, from any questionable sources.

He has given us, the Democratic National Committee, to understand that he will go into the White House with clean hands or not at all.

### Who Is Getting The Money of The Trusts?

So sure has been Wilson's stand, so well known his incorruptible purpose, that no private interests have dared to approach either our candidate or his committee.

We have not been offered a penny by the trusts, and we certainly have not solicited a penny from them. The money of the Interests is being spent against Wilson. No matter for whom—we need not discuss that here—it is now common gossip that the money power of the nation is being used in an attempt to defeat Woodrow Wilson.

### What Is a "People's Campaign?"

We are addressing ourselves to the real freemen of America, the upright, Progressive Voters of the country who are doing the work of the nation and not the work of trusts and bosses.

We realize that the salvation of every righteous cause rests with you.

Often this cry of a People's Party or a People's President is raised by the very forces we seek to defeat and whom we must and will defeat. But look to our standard and our standard bearer and decide yourself as to which is the People's Campaign and must, therefore, be fought with the People's money.

### Woodrow Wilson Has Clean Hands

Woodrow Wilson is the cleanest man in national politics. He came of illustrious forefathers, who laid by blood and heredity the foundation of a future President through generation after generation of upright record.

If Wilson is to be elected it must be by clean money and there is only one source of such money—from the voters of the country who realize the importance of having a government uninfluenced by the almighty dollar.

Wilson's hands are clean.  
Will you uphold them?

### How Much Money Will You Give? How Much Can You Raise?

There are big campaign expenses to be met if we are to win on Election Day in November. We must tell the voters of the country about Wilson, what he is, what he has done. We must show them his record. We must show them his platform. We must point out to them the features of his platform which mean so much to this nation. This great work will cost a lot of money. We must meet the usual heavy toll necessary to present a platform and a candidate to a hundred million.

Your dollar, your \$5, your \$10, your \$20 is needed. And don't mistake—we want the man who can only afford the one dollar. We need him. We need the woman who can

only give one dollar. We believe in this kind of loyalty—it's the kind that wins.

Let every one contribute to the Woodrow Wilson Campaign by the first mail. Let's have as big a fund as the corporations can supply the other parties. For the people are mightier even in money than the Combinations—when they get together.

### A Call To Those Who Will Club Contributions

No live progressive voter can do more for Wilson's cause than to head a list with his own contribution and then to have his fellow-workers and friends swell the total with their names and money.

If you work in an office or factory, mill, warehouse, on a railroad, ranch or farm, start the ball rolling. Line up the Wilson men. Sign up as many contributions as you can. And mail to us.

### How To Contribute To The Wilson Campaign Fund

Sign the Coupon in this corner and fill in the amount you give. Then attach your money to this Coupon and mail today to the address given on the Coupon.

Issue all checks, money orders and address all contributions to C. R. Crane, Vice Chairman Finance Committee, Democratic National Committee, 909 Michigan Avenue, Chicago, Ill.

Then write a letter to this paper giving your name as a contributor and stating your reasons why you believe Woodrow Wilson should be elected President of the United States. In this way you will be listed as a Wilson contributor. A Souvenir Receipt, handsomely lithographed, well worth framing, will be sent to you. Your letter will help the fight by encouraging your friends.

## LITTLE RED ROOSTER

Brought Delos Brown and Martha Gilmore Together.

By GEORGIA SELTER.

Never having had any love affairs of her own to occupy her time, Miss Martha Brown very naturally turned to those of others. And so it came about that scarcely a visit of Cupid had occurred in Plainville for years, that she did not bring about, assist in, or at the very least, predict!

"Luella," she called one morning to the niece whom she had befriended in her orphaned youth, "come and see who this is moving into the old Fleming cottage."

Luella obligingly left her dishwashing and came to peer over her aunt's shoulder.

"Why, that," she said, "must be Martha Gilmore. I heard yesterday she had bought the place of Delos Brown. I forgot to tell you, Aunt Mariette," apologetically.

"Quite a come-down, seems to me, for old Artemus Gilmore's daughter," observed Miss Mariette crisply. "I can remember when he mother didn't care to associate with Plainville folks."

"Oh, but Martha isn't that way a bit, aunt," said Luella loyally. "I feel real sorry to think she has had to give up her old home. And she has her old Aunt Martha to care for, too."

"Well, I can't imagine what Delos Brown is thinking of to sell that cottage—his mother's old home! I supposed he had more feeling for her memory. I shouldn't think he would want to see anyone else living there." Miss Mariette folded her hands as was her custom when sitting in judgment.

"Why should he care?" objected Luella. "He never saw his mother living at the cottage. It has stood empty for years. I suppose it will seem pleasant to have neighbors."

"And to such a brazen thing as Martha Gilmore," pursued Miss Brown, not to be interrupted.

Luella returned to her dishes without a word.

"When Aunt Mariette has been crossed nothing seems to please her."

"So You've Sold the Cottage?"

she thought. "Everybody knows Martha is as nice a girl as ever lived." "They needn't tell me," said Miss Mariette, left alone in the sitting room, "that she hasn't set her cap for Delos Brown!"

This bachelor nephew, good looking, of excellent habits and possessing a comfortable fortune, seemed to his aunt a desirable husband for her niece, Luella Lewis.

An hour later, therefore, as the young man was busily training his grape vines over a new trellis, he beheld his caustic aunt hobbling up his garden path.

"So you've sold the cottage?" she began without preamble.

"Yes. Thought I might as well get it off my hands when I had a good chance. It was no use to me except what garden I worked."

"Well," said Aunt Mariette shortly, "if you had taken the trouble to ask my opinion before doing it, you would have saved a good many remarks!"

Delos Brown started uncomfortably. His sensitive nature dreaded the sharpness of village gossip. Perhaps that fact accounted for his remaining single despite his many virtues.

"Of course you must expect folks to talk when a girl takes pains, to settle under the very eaves of a desirable bachelor's house. She is a brazen thing, but I wouldn't expect a man to see it!"

The old lady glanced sharply at the little gate standing open in the line fence, and sniffed disapprovingly as she betook herself homeward.

Martha Gilmore, standing amid the clutter of packing boxes in the forlorn parlor, was trying desperately to keep her tears back. With a quick tap, Miss Brown entered.

"So, you've moved down town," she observed. "No, I can't sit down," she observed. "No, I can't sit down, thank you. I just came in to see how you like it here. I must say it is sort of a difficult place for a lone young woman." Her eyes rested reflectively upon her unconscious nephew where he worked in his garden.

Martha's cheeks flamed suddenly. "My aunt is always with me, Miss Brown," she said, coldly.

"If there is anything I can do for you I hope you will feel at liberty to ask," said Miss Mariette. "Everybody has to have one such neighbor!"

Miss Mariette's eyes soon told her that her scheme had worked admirably. The little gate in the line fence was wired shut, and Martha never sat on the pleasant little south porch which faced Delos Brown's.

Martha Gilmore, with her broad hat tied low over her face, worked every day in the garden.

"I've got to raise something for winter, or we will have to have help from the town," she whispered over and over, when her back ached and her head felt dizzy from her unaccustomed labor.

And her garden did grow surprisingly. Early one morning Martha went out to look at the plants which meant so much to her.

Heading his industrious flock among her newly hoed rows was the strutting red rooster she had watched her neighbor place in his chicken yard a few days before. All about lay her tender young plants, torn and uprooted.

"Oh, go away," cried Martha, helplessly, waving her apron.

"Why, Miss Gilmore!" Delos Brown stood aghast at the havoc he had unwittingly wrought. "I supposed I had that park chicken-proof."

After much excitement they coaxed and drove the flock back into their own territory.

"And now you must let me help you repair the damages," he declared, forgetting in her apparent distress his fear of prying eyes and busy tongues.

To his astonishment, Delos found the girl very quiet and attractive. She knew a lot about gardening, too, and seemed eager to learn more.

"I declare," he murmured on his lonely porch one evening, "I declare I can't see why she is a brazen thing, as Aunt Mariette seems to think. I guess that garden means a great deal to her—more than it ought to if things were comfortable over there."

He began thinking anxiously about the long winter. "The cottage needs repairing to make it livable. I could do it as well as not without much expense. And I always have more wood from the farm than I can use. I hope she hasn't heard any of Aunt Mariette's foolish talk," he thought.

Through the dim twilight he could see Martha moving about the little lawn.

"Guess I'll go over, anyway," he said aloud, since Aunt Martha's sharp eyes could not penetrate the darkness.

"I came to inquire about the garden," he said, ill at ease in her presence. There was something fine in Martha's manner, even in that humble kitchen garden.

"Oh, it is better than it ever was before, thanks to you, Mr. Brown. It is really fortunate for me that my neighbor's chickens got into it!"

"But I can never quite replace it, Miss Gilmore, and that is why I want to do something else for you to even things up a little. The cottage needs repairing before cold weather. I can do it as well as not—in fact, I ought to have done it before I let you have it at all."

"Oh no!" cried Martha. "What would Miss Brown say?"

"So she has been talking to you?" groaned Delos. "I might have known it. Oh, you poor little girl!"

Martha clasped her hands in the darkness at the tenderness in his voice.

"I did not mind," she whispered with a sob.

"Not mind?" He took her trembling hands in his own. To his joy she did not attempt to draw them away.

"Do you know, Martha," he said very softly, "how a man feels about the girl he loves? He wants to protect her from everything that is unpleasant or difficult. That is why I cannot endure your living in this poor little house and working yourself to death in this garden. I am glad the red rooster destroyed it, since he opened the gate in the line fence. Let us be married to-morrow, Martha. It is going to cause a sensation, and we may as well have it all over with at once. And I want you so much, dear."

"It is pity," she protested, hesitating.

"It is not pity," he denied, taking her in his arms. "It is love, Martha."

The sewing circle met in Miss Brown's parlors next afternoon.

"Delos Brown and Martha Gilmore are married," cried Luella, rushing in excitedly.

"Well," said Aunt Mariette, composedly, after one mental gasp, "I've said from the day she moved into the Fleming cottage that this is what would come of it!"

Culture.

It has been said that the attainment of culture tends to allay the inflammation caused by daily routine. But true culture, that which is the result of the act of cultivation, does more. It so relates a man to his daily affairs that no inflammation arises and he observes with no less amazement than joy that he gains as much culture from the lowliest task as from the most exalted of which he is capable. When he realizes that mind and spirit are necessary, each to the other, he no longer regards his work as a laborer regards his toil. He becomes a creator; the world about him is the potter's clay, while the world within is the fair model which inspires the hand as it lovingly guides the wheel. Every object that comes into being from him is a new and fairer whole and with its creation he gains a new and fairer power.—Thomas Tapper.

## Will You Spend ONE DOLLAR to Elect Wilson President?

How deep is your conviction that this government ought to be in new hands, in clean hands?

How much are you in favor of a clean slate from Wilson and Marshall clear down the line to the very smallest offices in your locality?

The Democratic National Committee has every reason to believe that every progressive voter is willing to spend a dollar to elect Wilson and Marshall and their ticket. And that thousands are anxious to contribute to the Wilson Campaign Fund in amounts of \$2, \$5, \$10 and \$20.

To such we make our appeal. To such we must look for victory.

### Time An Important Factor

This is another case where time is money. The enemy have their funds—supplied instantly by the interests.

We have only a few days and contributions to be effective must be received at once.

There is no question of the money of the People being able to defeat the money of the Trusts.

Because it is greater even in volume and will be used in straightforward telling ways.

But to be effective it must be received and used within the next few days.

Quick action is absolutely necessary. Let us have your contribution or the list you make up from your friends and co-workers today if possible, tomorrow sure.

### How Your Money Will Be Spent

Woodrow Wilson, our standard bearer, has never had the time or disposition to talk about himself.

He has never used spectacular methods to place himself in the spotlight.

His greatest work has been done without ostentation, in the most expeditious, dignified manner.

The great mass of voters do not know what a really great man Wilson is. They do not know all he has done. They do not understand all the features of his platform. We must tell them.

To educate this great nation of voters, especially the clear thinking Independent Democrats, Republicans and Progressives who choose their leader on his merits, means the expenditure of a vast amount of money.

We propose to use your dollars in just this way—judiciously, and without a penny frittered away for an unnecessary item.

We know you have confidence we will do this thing—and successfully.

### Why the Dollar Counts

In this campaign the issues lie between the forces of Representative Government and Popular Government.

In Representative Government only a part of the people have influence—those with no political faith, who spend fortunes in any direction where their own ends are furthered for money.

In Popular Government all the people have influence, because their executives and legislators do not dare to thwart the expressed will of the people.

Representative Government, as ever, this year is being supported by the money of the interests. It is being lavishly given to the voters a wrong election of Wilson.

Popular Government, this year, too, must depend on the truth being told about Wilson. We must publish his record and platform broadcast so that no one can controvert it.

Your \$1, your \$2, your \$5, your \$10 or \$20 will count and count to win if spent in this work.

### NEW MILLINERY

### LITTLE COATS WELL LIKED

Dainty Trifles, but Just Now They Form a Really Important Part of the Wardrobe.

The little coats of bright-colored chiffon worn with lace, lingerie or chiffon frocks, are still at the height of their popularity. They are not by any means easy to copy, and that fact has a lot to do with their remaining somewhat exclusive novelties. One of the most successful frocks seen lately was of pale sage-blue nixon, with a delightful little coat of chiffon taffetas in blue of a slightly deeper tone. A narrow frill of silk edged the coat, which finished at the waist, at the sides and back.

The fronts were cut into long points and were crossed low down at the waist. Soft frills of shaded lace came down each side of the front of the coat and frills of the same lace decorated the elbow sleeves. There was a high Robespierre collar of black satin finished in front with crystal buttons, and touches of black also appeared on the sleeves and front of the coat. With this frock was worn a large picture hat of shaded lace, with a big aigrette of gauze roses in the front.

Another striking dress was of white lace, exquisite in its extreme simplicity, over which was worn a long sleeveless coat of bright yellow silk. The coat was very plainly made with no trimming but a very little edging of the silk arranged in close kiltings, but the whole effect was most strikingly original.

### VOTE FOR M. E. MERGER.

Northern Methodist Conference Would Join St. Louis Conference.

Two important actions were taken by Friday's session of the Missouri conference of the Methodist Episcopal church, now in session at Hamilton, Mo. A vote was taken on the proposed merger of the North Missouri conference with the St. Louis conference, making a single organization of the entire state. Eight votes were cast against the proposition and seventy-nine in favor. This proposed merger is in accord with the "enabling act" passed by the general conference held in Minneapolis last spring.

The question will now be voted on by the St. Louis conference at its next meeting, which takes place in the spring and if it accepts the proposed consolidation the bishops of the two conferences will decide the matter. A consolidation of the two conferences would improve the educational advantages in this state, as the single conference would secure the combined financial support of its members, who are now patronizing foreign educational institutions.

The other action taken by the conference was the admission to full membership of five candidates. Those admitted included Alva C. Brown, Maitland; S. C. Rear, LaPlata; L. L. Smith, Filmore; O. J. Wilson, Mercer, and L. E. Snyder, Wesley church of St. Joseph.

Misses Anna and Frances Eickholt returned to their home in Clyde Saturday morning, accompanied by their little nephew, Leonard Eickholt, who had been a patient at St. Francis hospital.
